ANIME (aslo known as Japanese animations)

March 23, 2021

Anime

=====

Anime are basically hand-drawn and computer animation originated in Japan. In Japan and in Japanese, anime describes all animated works , regardless of style or origin. Animation produced outside of Japan with similar style to Japanese animations is referred to as anime-influenced animation.

Above is a still from an anime.

As we can see the animation is so beautiful and time by time its getting more realistic.

=====

My experience with anime..

I started watching anime when the lockdown was announced in March 2020 due to Covid-19. I got many recommendations from my friends to watch anime. So I started with a very famous anime named 'Death Note' which was released in Japan in 2007. Later on I watched many animes as the Lockdown got extended. Now watching anime has become an hobby and my obsession towards anime is also increased.

Animes comes in many genres like : shonen, shoujo, seinen, isekai, slice of life etc.

My personal favourite genres are shonen, isekai and slice of life.

Animes are made from manga (which are known as Japanese comics or novels). First the manga issues are released , if it does well then the anime is made based on the specific manga.

So animes are released after a time gap then the original manga issue is released so I also started reading manga which gave me many spoilers for the upcoming anime episodes. Sometimes for fun I give spoilers to my friends about the upcoming episodes and they gets irritated😞😞.

Animes are very fun to watch and I would recommend others to watch it too.

There is also a Japanese term for people with consuming interests, particularly in anime ang manga known as Otaku (Japanese: おたく, オタク, or ヲタク).

It has also influenced me to learn Japanese.

=====

Below are some famous anime posters:

Below is a list of some popular animes to watch:

Dragon ball
Naruto
My hero academia
Death note
Parasyte
